

CPCCWHS1001 Prepare to work safely in the construction industry

by Safety Corp Pty Ltd, Registered Training Organisation (RTO) 91694

This nationally recognised training is offered by, or on behalf of Safety Corp Pty Ltd (RTO 91694). Training, assessment, and related educational and support services may be provided by an authorised third party training provider.

Safety Corp Pty Ltd is responsible for the quality of the training and assessment in compliance with government legislation, and for the issuance of certificates, including where services are provided by an authorised third party provider.

Overview

This course teaches the skills and knowledge required to work safely in the construction industry.

Key Learning Outcomes

- Identify health and safety legislative requirements of construction work.
- Identify construction hazards and risk control measures.
- Identify health and safety communication and reporting processes.
- Identify incident and emergency response procedures.

The simulated assessment environments will reflect the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment. Skills must be demonstrated by the student working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess students' skills and knowledge.

You will be observed and assessed physically demonstrating correctly fitting PPE:

1. Eye protection,
2. Hearing protection.
3. Hard hat.
4. High visibility retro reflective vest.
5. Dust mask
