Overview

This course teaches the skills and knowledge required to be able to verify others in the correct use of adrenaline autoinjector devices. The role of the verifier is limited to observing others who have successfully completed the ASCIA Anaphylaxis eTraining for Victorian Schools and verifying that these graduates can correctly use all of the adrenaline autoinjector devices currently available in Australia, as identified in the ASCIA anaphylaxis e-training.

This course is only relevant for the Victorian school environment where students have successfully completed the online modules of the ASCIA Anaphylaxis eTraining for Victorian Schools and require verification of the correct use of all adrenaline autoinjector devices identified in this training.

Key Learning Outcomes

- Need for urgent administration of adrenaline in the onset of anaphylaxis
- Current ASCIA Action Plan for Anaphylaxis (General)
- Cultural sensitivity and equity considerations
- Components and functions of all adrenaline autoinjectors currently available on the Australian market, as identified in the ASCIA Anaphylaxis eTraining for Victorian Schools
- Checks required on adrenaline autoinjectors to confirm their suitability for use
- Correct positioning of casualty prior to the use of an adrenaline autoinjector
- Appropriate positioning of the person administering the adrenaline autoinjector, in relation to the casualty
- Correct placement and activation of the adrenaline autoinjectors
- Summoning medical assistance in accordance with the ASCIA Action Plan for Anaphylaxis (General)
- Correct procedures for used adrenaline autoinjectors
- Verification activity recording and reporting requirements
- Requirements for refresher training to maintain currency of competence for self and candidates
