Overview

This course describes the skills and knowledge required Gas test atmospheres equipment in an irrespirable atmosphere, as defined by the Australian Standard.

Certain workplaces may require additional or specialised training, for high-risk environments. If you are unsure whether the training product is right for you, please seek advice from the training provider.

Key Learning Outcomes

This course teaches the skills and knowledge required to test the working atmosphere, using electronic test apparatus, to find out if it is safe for the proposed work. It applies to situations where an individual may be required to carry out gas testing of an atmosphere prior to entering a specific area or workspace. The competency requires the person to interpret readings and take acting's based on the interpretation.

Unit of Competency

On successful completion of this course, students will be eligible for a Statement of Attainment (SOA) for:

- [MSMWHS217 Gas test atmospheres](#)

An SOA will be issued by Safety Corp Pty Ltd within 30 days of completion of the course, provided all USI, fees and charges have been finalised.

The units of competency listed above are current on the National Register of VET at the time of publication. To view all the training package requirements of these units, click on each of the unit titles above.

Pre-Requisites

There are no pre-requisites for this course.

Course Requirements

Foundation skills are the underpinning communication skills required for participation in the workplace, the community and in adult education and training.

Learning – to learn to test gas in a range of atmospheres

Reading – to understand work instructions

Writing – to complete documentation such as reports/risk assessments.

Oral communication – to communicate with other personnel

Numeracy – to read measurements and gas level

Delivery Modes

1 day classroom training and assessment.

Training and assessment can be adjusted to account for specific workplace requirements and the existing skills and knowledge of the students.

Locations

Training and assessment may be held at a training facility or on a client's site. Please contact your training provider or Safety Corp for more information.
